

Rebecca

Enjoy a traditional Queenslander style with a modern twist.

Ideal for urban and sloping blocks, this low-maintenance design doesn't compromise on style, making the most of a smaller footprint while creating a feeling of spaciousness.

The integrated alfresco area can be opened fully to bring outdoor living inside or closed off during cooler times to create an intimate space for a quiet evening with friends.

Space isn't compromised in the master bedroom, with a roomy walk-through wardrobe to an ensuite with double vanities and ample shower space.

There is also plenty of room for a growing family with three bedrooms, all with abundant storage space, and a media room or optional fourth bedroom. If desired a garage can be added to the design.

ROOMS

| | |
|------------|-------------|
| Kitchen | 4.3m x 2.6m |
| Dining | 4.8m x 3.6m |
| Family | 4.8m x 5.5m |
